

## RTS-Trommel Screen

From *Recycling Equipment Manufacturing, Inc.*

**REM Model RTS  
Trommel Screen**  
for separating broken glass,  
dirt and other debris from your  
product stream

The REM Model Trommel Screen is built specifically to match your product stream and volume. These units can be built with multiple screen sizes to sort out different sizes of materials. Screen diameter and lengths are tailored to your product and volume needs.

REM-INC. can incorporate our Trommel Screens into a glass crushing or pulverizing system. The REM Model Trommel Screen is the perfect addition to your sorting system to remove contaminants and debris prior to hand sorting.

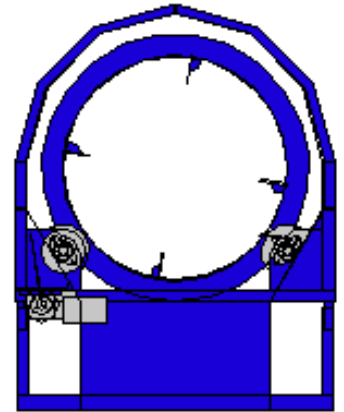

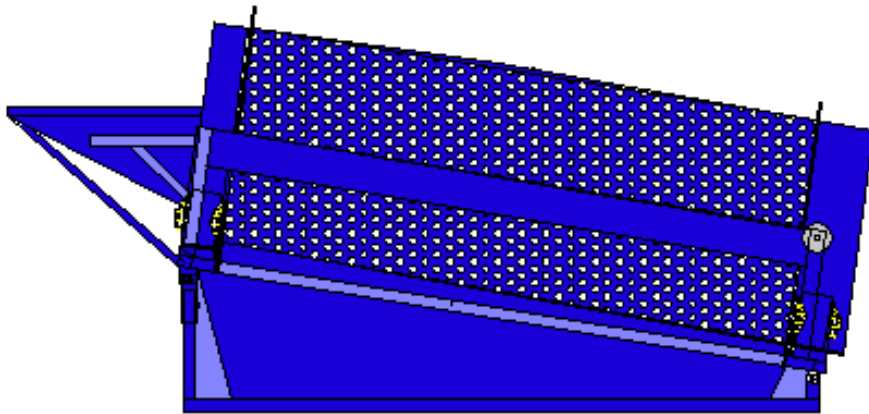

Built for years of service and low maintenance, these trommels feature time proven, field tested designs that will last and last.

When you need a tough, rugged, durable trommel screen that's built to last, think of REM's RTS Trommel Screens. To put our RTS Trommel Screen to work for you call **1-800-745-4736**

# Trommel Screen

A Leader in Recycling Equipment Since 1978
